EXPERIENCE

Software Developer

Dec 2025 — Oct 2026

ShineOn Agri-Farm Business - Gisagara, Rwanda

Helped in developing and maintaining their web application which allowing them to manage their products

EDUCATION

Gikonko Tss

Sep 2023 — Jul 2026

Gisagara Rwanda | AD

Strong academic background in **Software Engineering** with a focus on software development, artificial intelligence, machine learning, database systems, web technologies, and software engineering principles. Gained practical experience through academic projects involving full-stack web development, AI-powered applications, computer vision, and database design. Continuously expanding technical expertise by working on real-world software projects and exploring emerging technologies in artificial intelligence and modern software development.

HOBBIES AND INTERESTS

- Watching animations
- Reading books

SKILLS

- Collaboration Skills
- Debugging & Testing
- Version Control
- Python
- Machine learning
- Javascript
- Tailwindcss
- Flutter
- Object-Oriented Design
- API Development
- Cloud Computing
